HIGH-PERFORMANCE BIRTHRIGHT // Challenger didn't become an icon overnight. It's dominated the road since the golden age of muscle. When the only thing better than owning a muscle car was owning one unlike any other. A time when you didn't show up unless your car was tricked out with parts, stripes and a Scat Pack sticker on the quarter glass that served as a tell that your Challenger was hiding something substantial under the hood. It's time for a rebirth. It's time to awaken the legends. Introducing the performance trifecta: Challenger R/T Shaker,* Challenger R/T Scat Pack and 392 HEMI® Scat Pack Shaker.*

IT'S EARNED ITS STRIPES // This is for those seeking the ultimate combination of raw power, pure performance and authentic attitude. 392 HEMI Scat Pack Shaker* is the real deal, straight from the factory. We're talking functional, fully floating, open element Shaker hood scoop with cold air induction. A Mopar® Cold Air Intake, conical air filter and legendary 6.4-liter HEMI V8 engine churning out an estimated 485 horsepower and 475 lb-ft of torque. Because power means nothing without control, Brembo® brakes, 3-mode ESC^[2] with full-off mode, and high-performance suspension with 20x9-inch wheels and performance steering are standard.

The 392 HEMI Scat Pack Shaker* shows its supremacy with a 392 HEMI badge on the Shaker hood scoop, bold hood-to-tail stripes and a retro fender badge. Once inside, high-performance leather-trimmed Alcantara® suede seats in Black or Black with Ruby Red welcome drivers. A fierce animated Scat Pack Bee appears as the start-up graphic in the cluster and Bright pedals wait for commands. There's much more to the new 2015 Challenger story.
